TONIGHT
WITH
BATATOON!

CONCEPT

TITLE: Tonight, with Batatoon!

PREMISE: In a twisted journey through the abandoned headquarters of TVI, a man seeks the truth behind the mysterious disappearance of his brother Lucas during the filming of the last episode of the beloved children’s show Batatoon. But TVI hides more than just dusty archives — it hides something strange... and it's still alive.

PLAYER MOTIVATION: The protagonist's obsession with solving his brother's disappearance drives him into the heart of TVI's forgotten corners, more specifically, Batatoon's studio. Each new discovery deepens the mystery, feeding his need for answers.

UNIQUE SELLING PROPOSITION: A psychological survival horror and mystery set in an iconic Portuguese cultural show, blending real-world TV references with dark, surreal horror elements. Features an adaptive AI antagonist inspired by classic horror games.

TARGET MARKET/TARGET AGE:

- Fans of narrative-driven horror and mystery solving games
- Ages around 18-35 with nostalgia for early 2000's media

GENRES: Psychological horror, survival, mystery and adventure

COMPETITIVE ANALYSIS:

- Resident Evil 2 Remake – AI antagonist and survival mechanics.
- Control – Narrative exploration in institutional environments.
- Alan Wake 2 – Narrative horror with a mystery thriller aspect.
- Silent Hill – Psychological horror in confined spaces.

EXPECTED HARDWARE REQUIREMENTS:

- Processor: Intel Core i5-6400
- RAM: 8 GB
- GPU: GTX 1060 or higher
- Storage: 5-10 GB

GOALS:

- Deliver a compelling narrative-driven horror game rooted in Portuguese culture.
- Implement a memorable antagonist with adaptive pursuit behavior.
- Find what happened to Lucas and to the Batatoon TV show.

PROPOSAL

TITLE, HOOK, GOALS: Tonight, with Batatoon! is a game where you will need to unravel a dark mystery from your childhood while being hunted by a twisted mascot from your past, to discover the truth behind the show and the disappearance of your brother Lucas.

STORY SYNOPSIS, BACKSTORY, CHARACTERS: The game is set in the beginning of the 2000's, after the end of the Batatoon TV show and the disappearance of a group of kids with it. The main character, Alex, lost his brother in the last episode of the Batatoon show and he has been the past year after him, trying to discover why the show suddenly ended and why did his brother disappeared. Alex goes to TVI's headquarters to find what happened and unravel the mystery behind the TV Show while something strange tries to stop him from revealing the truth...

GAMEPLAY AND MAIN MECHANICS: The protagonist will be able to walk around and explore rooms and hallways, using a flashlight, catching items and reading documents to discover what happened. He will be also able to shoot with a small handgun and run away from Batatoon. The items the character chatches will help him unlock doors and different parts of the environment until the end of the game, while getting life recoveries and bullets its essential as well.

TECHNOLOGIES:

- Cheat Mode
- Free Moving Camera
- Stop All Animations
- FPS Checker
- Animator Controllers
- Light/Shadow System
- Raycasting

RISK ANALYSIS:

- Developing a good and fully functional intelligent system for Batatoon to chase the player
- Making good and immersive environments and sound design
- Creating an engaging story to keep players interested and engaged trying to discover and explore as much as possible
- Creating good level design so players know what to do and where to go at every part in the game
- Make the game fun!
